

MK Day Code Guide

The day code can be found on the bottom of a container, the barrel of a pencil or the crimp of a tube of each product and refers to when the item was manufactured. Most products have a shelf life of three years from the date of manufacture. If less, then the expiration date of the product will be clearly indicated on the package. See the company website for your country for more information.

POSTION 1	
YEAR	CODE
2011	1
2012	2
2013	3
